To our Community,

Pierce Public Schools takes pride in supporting the needs of the whole child, and to ensure that all children are safe, supported, engaged, and challenged each school day. Research indicates that initiatives focused on improving aspects of students' well-being in schools — such as addressing childhood obesity, preventing bullying, supporting students mental health, and restricting use of exclusionary discipline — have been found to be successful in improving student success and academic excellence. We have assessed our wellness policy as part of the USDA requirements. Below are the results of our assessment.

We will continue to evaluate our Wellness Policy and work to implement all goals to full capacity and continue to provide nutritional standards. We are working towards promoting lifelong healthy behaviors.

This Triennial Assessment review of the Wellness Policy will be shared with the Pierce Public School Board of Education for review and the final report will be posted on the school website.
